BUMPTION.—The primary cause of Con-umption is derangement of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation, I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body. Persons with direction thus impaired, having the slightest predisposition to primonary disease, or if they take cold, will be very liable to have Consumption of the Langs in some of its forms; and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased mucus and slime which are clogging these organs so that they cannot perform their functions, and then rouse up and repose, the surest and best remedy is Schenck's Mandrake Pills. These Pills clean the stomach and bowels of all the dead and morbid slime that lecausing disease and decay in the whole system. They will clear out the liver of all diseased bile that has accumulated there, and arouse it up to a new and healthy action, by which natural and ealthy bile is secreted.

The stomach, bowels, and liver are thus cleaned the use of Schenck's Mandrake Pills; but there maine in the stomach an excess of sold, the organ is torpid and the appetite poor. In the bowcle, the lacteals are weak, and requiring strength and support. It is in a condition like this that Schenck's Seawood Tonic proves to be the most valuable remedy over discovered. It is alkaline, and its use will neutralize all excess of acid, making the stomach sweet and fresh; it will give permanent tone to this important organ, and create a good, hearty appetite, and prepare the system for the first process of a good digestion, and ultimately make good, healthy, living blood. After this preparatory treatment, what remains to cure meet cases of Consumption is the free and persevering use of Schenck's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, puri are the blood, and is readily absorbed into the begintler, and thence distributed to the diseased ange. There it ripens all morbid matters, whethor in the form of abscesses or tubercles, and then assists. Notice to expel all the diseased matter in the form of free expectoration, when once it ri one. It is then, by the great healing and purify ng properties of Schenck's Pulmonic Symp int all places and cavities are besied up sound

od my patient is cared. The essential thing to be done in curing Consumption is to get up a read appetite and a good direction, so that the body will grow in flesh and addression, so that the body will grow in flesh and addressed through Ha person has dismised langes, a cavity or abscess there, the eavily cannot heal, the matter can et ripen, so long as the system is below par. What is necessary to cure is a new order of things, a good appetite, a good natrition, the body to grow in flesh and get fat; then Nature is helped, the cavities will heal, the matter will ripen and be thrown off in large quantities, and the person regain health and strength. This

the body to grow in feet and get lat, then No intro is helped, the cavities will heal, the matter will ripen and be thrown off in large quantities and the person regain health and strength. This take true and only plan to cure Concemption, entirely destroyed, or even if one long is entirely gone, if there is enough vitality let in the other to heal up, there is hope.

Lave even many persons cured, with only one sound lung, live and enjoy life to a good old are consequently destroyed, or even if one long is entirely gone, if there is enough vitality let in the other to heal up, there is hope.

Lave even many persons cured, with only one sound lung, live and enjoy life to a good old are consequently on the consequence of the same than the consequence of the large whether the form may be. It is important that, while reset host to take cold; keep in-doors in cool and damp weather; avoid night-air, and take on-door exercise only in a genial and wars sunshine.

I wish it distinctly understood that when I recommend a patient to be careful in regard to take the consequence of the same who has been entirely cared, and it is precisely the same in regard to Concemption. So long as the longs are not period in the patient of the disease. Hence it is that I so strengously caution polinonary patients against caposing themselves to an amorphere that is not genial and pleasant. Confirmed Consumptions, long as the longs are morpered that is not genial and pleasant. Confirmed Consumptions long are many of the desire, the constitution is stand of provoking it, as many of the faculty do and in diamol lung cannot with rafety to the patient the exposen to the bitting blasts of winter of the word train of the model and cannot be applied to a reflect that the conditions of the patient of the kinds required.

The person was also standard the provoking it, as many of the faculty do and the provoking it, as many of the faculty do and the provoking it, as many of the faculty do and the provoking it is not provoking it is not provoking it i
